# What you can expect from Medica:

You decide which which exams need reporting, and we do the rest.

## Fast turnaround times

Reports provided reliably within agreed and clinically appropriate timeframes.

## Quality assurance

Detailed quality assurance process to monitor the standard of radiology reporting.

## Capacity to meet your needs

Over 500 reporters with an internationally growing team, providing the reporting you need, when you need it.

## Access to patient information

Reports made with access to all wider patient information, previous reports and imaging without the need for involving local hospital staff.

## Safe communication of clinically significant findings

**Safe, transparent and effective** process for managing urgent findings, discrepancies, reporter queries and feedback.

## Performance reporting

Detailed and actionable data about how your teleradiology service is running, which supports **continuous improvement and better outcomes**. Information is available both live and monthly.

## Reporting demand forecasting

Intelligent use of historical data means we can share information with hospitals about likely future needs, without reliance on local hospital administration. This means we can help you **prepare for pressure** periods and **maintain your reporting KPIs** throughout.

We have a friendly team of account managers based across the UK who would love to hear from you. Meetings can be held at your convenience; over the phone, video call or in person at your hospital.
