Pathology

Supporting cancer waiting times and addressing your backlogs

Trusted partner
of high-quality
services

18+
YEARS

Experience servicing
the NHS

A pathologist-led, fully-digitised histopathology reporting and scanning service

www.medica.co.uk/pathology

What you can expect from Medica:

Clinical quality

A consultant-led service with a resilient clinical governance structure

Compliance and accreditation

A safe, high-quality service that complies with all relevant standards

Competitive turnaround times

Consistently excellent turnaround times. Fast-tracked reporting to support urgent diagnoses and MDT scheduling

A collaborative, flexible approach

An invaluable extension to your workforce, helping you meet KPI targets. We'll work with you to develop a bespoke service that supports your workflows

Improved productivity

Increasing the efficiency of your service across the reporting workflows and wider laboratory processes

Clinically-led services

Strong medical leadership and a robust credentialing process to ensure our doctors have the relevant experience and qualifications

Digital histopathology reporting

Our team of GMC-registered, UK-based consultant histopathologists offer a resilient, clinically-led reporting service. The service has flexible options to help you address your backlogs, provide additional capacity and offers access to sub-specialist expertise.

Not already digital? We can digitise slides for you

Our scanning service offers multiple options to suit your needs. The flexible service enables NHSI pathology networks, offers logistical solutions and is managed by our experienced team.

We have a friendly team of account managers based across the UK who would love to hear from you. Meetings can be held at your convenience; over the phone, video call or in person at your hospital.
