MR Prostate

Reporting timeframes
to meet your needs

20+
YEARS

successful delivery to
over 100 NHS Trusts

Dual and multiparametric analysis reporting of Prostate MRI to the latest PIRADS standards using TeraRecon software.

www.medica.co.uk

What you can expect from Medica:

Reporting process:

All reports are provided directly back into your local reporting system. Reports are made with access to all wider patient information, reports and imaging.

Implementation:

Deployed within the standard elective reporting service. There will be a small number of actions to ensure exams are identified, reconstructed correctly and that a suitable reporting panel is applied.

Software:

Medica use TeraRecon iNtuition for reporting MRI Prostate exams. This is fully integrated with the Medica PACS and provides a seamless experience for reporters to access a wide range of advanced visualisation tools that the solution provides.

Ongoing support and service management:

- Overseen by our service development team
- Hands-on clinical leadership
- Dedicated account manager
- IT support throughout
- Monthly performance reporting

Audit:

All reporting is continuously audited. For reporters in this service the normal audit rate is 5%. Medica appoint suitably qualified and experienced auditors to review performance.

We have a friendly team of account managers based across the UK who would love to hear from you. Meetings can be held at your convenience; over the phone, video call or in person at your hospital.
